Processors

Processor type	Intel® Mobile Pentium® III processor at 700 MHz featuring Intel® SpeedStep™ technology		
Processor speed	700 MHz		
External bus speed	100 MHz		
Cache memory	32 KB Level 1 and 256 KB Level 2 cache (integrated into CPU chip)		
Processor core voltage	1.6 volt core using 'Voltage Reduction Technology' in AC mode 1.35 volt core in battery mode		
Co-processor	Integrated in processor		
System bus	PCI		
Processor type	Intel® Mobile Pentium® III processor at 650 MHz featuring Intel® SpeedStep™ technology		
Processor speed	650 MHz		
External bus speed	100 MHz		
Cache memory	32 KB Level 1 and 256 KB Level 2 cache (integrated into CPU chip)		
Processor core voltage	1.6 volt core using 'Voltage Reduction Technology' in AC mode 1.35 volt core in battery mode

Features & Benefits

Processors

Features	Benefits
Intel® Mobile Pentium® III processor at 600/650/700 MHz featuring Intel® SpeedStep™ technology	<p>The latest Intel® Mobile Pentium® III processor at 600 MHz featuring Intel® SpeedStep™ technology enables your PC to handle multiple tasks simultaneously and offers high performance even for advanced business and graphics applications.</p> <p>Intel® SpeedStep™ technology provides two performance modes near desktop performance and all benefits of mobility</p> <p>Maximum performance mode for near desktop equivalent performance while connected to external power</p> <p>Battery optimised performance mode for the best balance between performance and battery life</p> <p>Battery optimised mode provides a 40-60% reduction in CPU power while maintaining 80% of the maximum performance</p> <p>Pentium® III technology adds over 70 new instruction sets to accelerate multimedia applications.</p>
Intel® Mobile Pentium® III processor at 500 MHz	<p>Designed for all professional power users on the road and in the office</p> <p>Improves speed of certain operations often used for multimedia applications. Pentium® III offers more benefits in video, graphics and sound performance</p>
Integrated Level 2 cache (256 KB on die)	Ensures high speed memory access speeds, giving an improved performance
100 MHz external bus speed	Accelerates data transfer rates between the processor and main memory

Processor

Feature	Benefit
Intel® Mobile Celeron™ processor at 500/550 MHz	<p>The Intel® Mobile Celeron™ processor offers enough resources for all current office applications</p> <p>Enough resources for business to business presentations</p> <p>This processor features an optimised price / performance ratio</p>
Integrated Level 2 cache (128 KB on die)	Ensures optimal memory access speeds, giving an improved performance
100 MHz external bus speed	Accelerates data transfer rates between the processor and main memory

Memory

Feature	Benefit
Standard 64 MB SDRAM	64 MB RAM is ideal for Windows® to run on powerful memory intensive software at a comfortable speed
Two memory slots to configure	A larger amount of memory improves the operating speed
Expandable up to 320 MB	320 MB RAM are enough for all current applications and ensures enough power for future applications
	Easy upgrade for customers

Memory, cont'd

512 KB Flash EPROM	Flash EPROM's allow user to quickly update BIOS if necessary without returning machine to supplier – just by updating via software
	Saves time and upgrade cost for the user
32, 64 and 128 MB memory expansion modules (optional)	Faster manipulation of software and data stored in memory
	User can easily upgrade memory when need arises

Integrated Disk Drive

Feature	Benefit
3.5" diskette drive	Provides small, durable, industry-standard media for portable environment
	Reads from and writes to 3.5" 720 KB and 1.44 MB diskettes (adjusts automatically)

Hard disks

Feature	Benefit
12 GB* hard disk drive	Huge storage capacity for demanding users
	12 GB* offers enormous storage capacity for applications, graphics, audio files, large presentations and programs
6 GB* hard disk drive	Provides large storage capacity for multiple programs and data
	6 GB* offers enough storage capacity for applications, graphics, audio files or large presentations
	*one GB means one billion bytes
13 ms average access time and 1:1 interleave	Fast access to programs and data stored on hard disk
	A fast access to the hard disk ensures an improved overall system performance
Low-power modes	Longer battery operating life
S.M.A.R.T hard disk technology	User can choose the settings via software
	Hard disk with integrated self-testing functionality
	The hard disk is capable to send out a report when failure occurs if manageability software is installed

Integrated DVD-ROM drive

Feature	Benefit
6 speed DVD-ROM drive (12.7 mm high)	Reads both standard CDs and next-generation DVD-ROMs
	Access up to 650 MB on a CD-ROM or 17 GB on a DVD-ROM
	High quality medium for Multimedia presentations, electronic catalogues, or other disk space consuming applications
	Enormous storage capacity for the next generation of image databases, company presentations on DVD, software driven sales databases or offline product configuration
CD-ROM compatibility	Reads CD-ROMs, CD-Rs and CD-RWs at up to 24 speed rates

Integrated CD-ROM drive

Feature	Benefit
24 speed CD-ROM drive (12.7 mm high)	High quality medium for multimedia presentations, electronic catalogues or other disk space consuming applications
	Reads from 8 cm and 12 cm CD-ROMs
	High-speed helps installation of software, CD-ROM based databases, audio- and video files
	Reads all modern CD-ROM formats such as Multisession, CD-R and CD-RW

Displays

Feature	Benefit
13.0" DSTN (33 cm)	Ergonomic display and more relaxed working for the eyes
12.1" TFT (30.7 cm)	Comfortable display size; optimised for budget restrained customers
	Bright and non-flickering display enhances working condition and reduces eye strain
	Internal screen resolution of 800 x 600 with 24-bit colour depth (16.7 million colours)
13.3" TFT (33.8 cm)	Bright and non-flickering display enhances working condition and reduces eye strain
	Internal screen resolution of 1024 x 768 with 24-bit colour depth (16.7 million colours)
14.1" TFT (35.8 cm)	Bright and non-flickering enhances working condition and reduces eye strain
	Large display for graphics demanding users
	Internal screen resolution of 1024 x 768 with 24-bit colour depth (16.7 million colours)
15.0" TFT (38.1 cm)	Bright and non-flickering enhances working condition and reduces eye strain
	Largest available display
	Ideal for showing presentations direct on the display for a small audience
	No need to connect an external monitor in the office
	Internal screen resolution of 1024 x 768 with 24-bit colour depth (16.7 million colours)

Graphics sub-system

Feature	Benefit
S3 Savage IX	Offers the highest performance and boasts superior graphics with a 128-bit architecture
Resolutions	1024 x 768 x 16.7 million colours internal resolution
	1600 x 1200 x 65.536 colours external resolution
8 MB video RAM	Provides leading edge performance along with the highest image quality

**Graphics subsystem,
cont'd**

AGP-2X	Full Accelerated Graphics Port 2X support features a peak bandwidth of 2x the PCI bus Improves 3D performance Improves overall system performance. The CPU can perform other activities while the graphics chip is accessing data in system memory.
Video graphics accelerator	Ensures that graphics are generated quickly on screens to take advantage of Graphical User Interfaces such as Windows
Integrated TV encoder	Sets new quality standards for flicker reduction, filtered overscan compensation and NTSC/PAL encoding Ensures excellent TV output quality
Dual display mode	Allows user to show data and presentations to colleagues or customers on an external monitor or beamer while controlling the procedure from the internal screen and keyboard
Multiple monitor mode	Work with different resolutions on different devices – allows high resolution internally and lower resolution on external devices unable to support higher resolutions (depending on OS support - may require extra hardware)

Pointing device

Feature	Benefit
AccuPoint™ II	User friendly pointing device for precise control of cursor Two additional programmable scroll buttons for convenient scrolling through large documents or web sites No protruding extras when travelling

Keyboard

Feature	Benefit
Full-function keyboard	3 mm travel ensures faster, more comfortable data entry
Cursor keys	Allow fast, convenient cursor positioning
12 function keys and embedded keypad	Provides desktop keyboard functionality and greater productivity
8 hot keys	Allow users to change set-up features and HotLock security direct from the keyboard
Windows® keys	Significantly improves interaction with Windows® programs
Euro sign	Printed on keyboard. Ready for full transition to the Euro in 2002
Palm-rest for hands	Allows easy comfortable typing, even where there is no flat surface

Interfaces

Feature	Benefit
Serial port	16550UART equivalent allows to connect standard devices accepting serial signals
Parallel (ECP) port	Allows use of peripheral devices accepting parallel signals Permits easy data exchange with external storage devices Permits easy and rapid data exchange with external devices, (e.g. CD-ROMs, printers or scanners)
External SVGA colour monitor port	Provides high-resolution (up to 1600 x 1200 dots) display of colour and graphics on external monitor for sharp images

Interfaces / cont'd

PS/2 keyboard/ PS/2 mouse port	<p>Allows use of 102-key keyboard when desired; increases productivity of operators familiar with 102-key keyboard</p> <p>Provides full keyboard versatility</p> <p>Allows faster, more accurate entry of numerical data</p> <p>Allows use of desktop pointing devices such as a mouse with graphics and presentation software</p> <p>Frees serial port for use by another device</p>
USB port	<p>Future protection by being compatible with the next generation of low-power, user-friendly expandability</p> <p>Allows for up to 127 devices to run simultaneously on the PC</p>
Microphone	Enables connection of a microphone for audio input
Headphone	Enables connection of a stereo headphone for audio output
TV out	<p>Allows to connect a NTSC/PAL TV</p> <p>Provides excellent presentation, graphics and multimedia capabilities with a TV</p>
Fast infrared port	<p>Wireless bi-directional transmission of files between many types of devices incl. PCs, printers, PDAs, modems, telephones</p> <p>Low power consumption</p> <p>IrDA 1.1 compliant industry-standard</p>

Design

Feature	Benefit
A4 notebook design	<p>Provides the speed, power and expandability of a high performance desktop in a lightweight, go-anywhere form</p> <p>A4 format fits into nearly every suitcase.</p>
Rugged ABS casing	<p>Tough enough to take the knocks of life on the road</p> <p>Colour is integrated into material so casing doesn't require painting and there is no danger of paint peeling or scratching</p> <p>One of the most modern currently available plastics</p>

Expansion

Feature	Benefit
2 Type II or 1 Type III PC Card (PCMCIA) slot	<p>Provides mobile communication and expansion in a credit-card-sized format</p> <p>Can be used for a wide range of communication and expansion modules such as modems, network adaptors, flash memory cards and removable hard disks</p>
2 free memory slot (64 MB down on motherboard)	<p>Allows memory expansion up to 320 MB RAM</p> <p>32, 64 or 128 MB RAM modules available</p>
CardBus ready	Allows access to all the latest, high performance PC Card expansion devices

Docking (optional)

Feature	Benefit
Card Station III	Connects the Satellite Pro to Card Station III
Spacer	Ensures improved stationary ergonomics

Docking (optional), cont'd

Card Station IV	Adds additional PC ports to the Satellite Pro The additional ports are: serial, parallel, external SVGA monitor, 2 PS/2 ports, 2 USB ports, microphone jack, headphone jack, MIDI/Joystick port, line-in, line-out, 1 PC Card slot Type III or 2 PC Card slots Type II
Port Replicator	Adds additional PC ports to the Satellite Pro Additional ports: serial, parallel, external SVGA monitor, 2 PS/2 ports, 2 USB ports, line-in, line-out, microphone jack, headphone jack and MIDI/Joystick port

Power supply

Feature	Benefit
Lightweight removable, rechargeable Lithium-ion battery pack	Higher capacity than other battery types, hardly any memory effect Environmentally friendly to dispose of Offers longer battery life Most modern battery technology Can be recharged at any time
Toshiba Power Extensions	Allows user to specify when power-hungry components should be shut down to make most efficient use of available battery power
Toshiba Hibernation and Resume	Allows turning the notebook off without exiting from software application; powers-up where you left off. AutoSave provides security against possible data loss due to loss of battery power. Hibernation stores the data on the hard disk. No need to use a battery to keep the data. Resume stores the data in the memory.
ACPI enabled BIOS	Future protection by allowing compatibility with highly advanced power and expandability features in Microsoft's Windows® 98
Intelligent power supply	Provides easy access for monitoring battery life with battery "gas gauge," invoked through pop-up menu.
System reset button	Allows rebooting without cycling power and without keyboard use (functions even when keyboard is locked)

Multiple security system

Feature	Benefit
Power on password	System asks for password before the PC boots
Hard disk protection	The hard disk is protected from removal by a screw.
Secure Sleep™	Instant security with a screen blank and keyboard/mouse lock-out using the F1 hot key
